

Occupational Health & Safety

Bird/Pest Control – lowers health and safety risks while saving money with “green” solutions

Issues:

- Risk of Disease for employees and customers. Over 60 transmissible diseases from birds and their droppings
- Cleaning bird droppings costs money and wastes valuable resources
- Financial liability from slips and falls on bird droppings (pigeon, geese, etc.)
- Bird droppings deface property and shorten the life of equipment
- Bird-infested facilities give a bad image for employees and customers and make products unsalable
- OSHA and other organizations can cite, fine, or shut down organizations for bird-mess problems

Application: Birds and pests can be controlled without harming them or the environment. Physical barriers like spiked needle strips or non-toxic sticky gels, sound deterrents, visual repellents and taste aversions saves money and resources.

Recommendation: We offer products to solve any bird problem. Depending on the infestation and on each customer's needs, any of these products or combination of products will be effective.

PRODUCT FEATURES & BENEFITS

Repel pigeons, sparrows, starlings, crows, etc. – electronic bird control devices are simple and low-maintenance.

BroadBand PRO bombards birds with unrelenting sound combinations (#BB-PRO)

- Ultrasonics, natural predators, birds in distress, generic harassments (intermittent, programmable)
- Equivalent of having BOTH the Super BirdXPeller PRO #1 and the Ultrason X
- Protects up to 10,000 sq. ft. (ultrasonic) and up to 6 acres (sonic)
- Ships with three visual repellent devices for maximum realism and effectiveness

QuadBlaster QB-4 360-degree coverage ultrasonic repeller (#QB4)

- Repel birds and bats for up to 6,500 sq. ft.
- Offensive to birds; humans can't hear it
- Use in loading docks, warehouses, storage facilities – enclosed or semi-enclosed areas

Super QuadBlaster QB-4 + Strobe visual deterrent (#QB4-S)

Bird Blazer indoor laser bird repeller (#BLAZER)

- Use in large enclosed spaces – indoor; covers over 2,500 sq. ft.

Ultrason X ultrasonic bird repeller (#USX)

- Control birds with world's first silent repeller for outdoor use
- Four remote speakers protect up to 3,600 sq. ft.
- Easy to install and program

BirdXPeller PRO #1 & #2 species-specific programmable bird repeller (#BXP-PRO 1) & (#BXP-PRO 2)

- Repel birds with distress cries and predator calls
- Version 1 repels pigeons, gulls, starlings and sparrows
- Version 2 repels blackbirds, crows, grackles, cormorants and ravens
- Protects up to 1 acre, indoors or outdoors
- Intermittent natural sounds are programmable
- Optional remote extension speaker (#BXP-ES)

Super BirdXPeller PRO #1 & #2

(#SBXP-PRO 1) & (#SBXP-PRO 2)

- Repel birds with distress cries and predator calls
- Protects up to 6 acres, indoors or outdoors
- Intermittent natural sounds are programmable

Mega Blaster PRO wide-area bird control (#MEGA)

- Protects up to 30 acres with over 90 customized sounds available

Occupational Health & Safety

Bird-X Bird/Pest Control – lowers health and safety risks while saving money with “green” solutions

REPEL PIGEONS, SPARROWS, STARLINGS, CROWS, SWALLOWS AND MORE!

Physical barriers and deterrents provide a permanent, one-time solution

SPIKES Needle Strips keep birds off of any landing or roosting surface

- Spikes are flexible, durable and long-lasting
- Easy to attach to any surface with screws, nails, wire, or adhesive (#SSA) adhesive for best results; each tube covers 20 linear feet

Stainless Steel spikes come in a variety of lengths:

10-ft. kit (#STS-10), 24-ft. kit (#STS-24), 50-ft. kit (#STS-50), 100-ft. kit (#STS-100)

Polycarbonate spikes come in a variety of lengths:

10-ft. kit (#SP-10), 25-ft. kit (#SP-25), 50-ft. kit (#SP-50), 100-ft. kit (#SP-100)

Polyethylene Knotted Bird Net keeps birds from infesting buildings and crops

- Premium Grade knotted 3/4” bird exclusion netting
- Prevent bird infestation in public and industrial facilities, vineyards, orchards, etc.
- Stock sizes: 25' x 25' (#NET-PE-25-25), 50' x 50' (#NET-PE-50-50) Call Bird-X for other sizes

Polypropylene Heavy Duty Bird Net for structures 100' x 14' (#NET-STR-100)

- Premium grade mesh 1/2” exclusion netting
- Installs easily (use #MTG-CASE mounting clips); lasts for decades
- Lightweight, pliable, UV-stabilized, resists deterioration Call Bird-X for other sizes

Bird Proof Gel repels birds from roosting areas (#BP)

- Effective on any material – stone, wood, concrete, metal, etc.
- Long-lasting – up to one year or more depending on conditions
- Case of 12 tubes treats 120 linear feet

Visual repellents are simple and effective

Prowler Owl realistic, predatory repeller (#OWL)

- Get rid of pest birds with a lifelike, aerofoil-wing predator

Terror Eyes – world's only visual device with true holographic eyes (#TE)

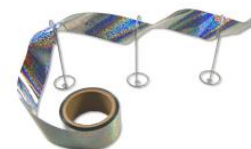

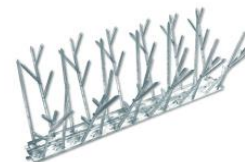

- Repel birds long-term with this lifelike, moving predator

Scare-Eye Balloons

- Reflective eyes repel birds long-term
- Comes in three colors: Black (#SE-B), Yellow (#SE-Y), White (#SE-W)

Irri-Tape holographic, iridescent foil bird tape – 100 ft. (#TAPE-100)

- Combines holography, wind, light, and sound to irritate pest birds
- 500-ft. kit (#TAPE-500) comes with tape brackets for installation

Occupational Health & Safety

Bird-X Bird/Pest Control – lowers health and safety risks while saving money with “green” solutions

REPEL CANADA GEESE

A combination of products will maximize effectiveness

GooseBuster Canada Goose Repellent Sound System (#GB)

- Features world’s only naturally-recorded alarm and alert calls of geese
- Protects up to seven acres with one unit; 21 acres with two units
- University developed and field-tested; proven effective in multiple studies

Gator Guard goose, duck and small animal repeller for ponds or lakes (#GG)

- Works anywhere in the country as fear of predators is instinctive

3D-Coyote (#3D-COYOTE) & 3D-Fox (#3D-FOX)

- Lifelike, full-size decoys in the country as fear of predators is instinctive

REPEL NON-BIRD PESTS LIKE RODENTS, BATS & ANIMALS

Yard Gard silent-to-humans pest animal repeller (#YG)

- Targets deer, raccoons, rabbits, skunks, opossums and more
- Motion-activated or constant; covers up to 4,000 sq. ft. indoors or outdoors

Deer Gard silent-to-humans deer repellents (#DG)

- Keeps deer away from your property without messy chemicals
- Motion-activated or constant; covers up to 4,000 sq. ft.

- Targets insects, rodents, bats and small animals
- Commercial-grade unit features 9 pattern settings, adjustable frequency and volume
- Covers up to 3,500 sq. ft. indoors or semi-enclosed space

Transonic Mole transonic mole and gopher chaser (#TX-MOLE)

- Three-in-one sensory attack on all burrowing critters
- Clean, safe, non-toxic and harmless to pets and humans
- Covers up to 50 ft. radius, approximately 7,800 sq. ft.

Nature’s Defense organic granular pest repeller ND 22oz. (#ND-10012C) & ND 50lbs. (#ND-10050C)

- Made with certified organic ingredients, no harmful chemicals
- Repels deer, rabbit, squirrel, skunk, raccoon, opossum, etc.
- 22oz. covers up to 3,500 sq. ft., 50lbs. covers up to 3 acres

Nature’s Defense Deer Repellent Packs (#ND-10004C)

Nature’s Defense Mouse & Rate Repellent (#ND-1012MR)

Garden Scent-ry Pest Repeller Container (#GS)

- Unique container allows repellents to be more effective
- Helps repel garden pests long-term

8 WAYS

BIRDS &

Wasted Personnel Time

Time spent cleaning is a huge opportunity cost

Poor Quality / Bad Image

Unsanitary, dropping-laden premises are bad for employees and customers

Risk of Inspection

OSHA, etc. can cite, fine, or shut down companies for bird mess problems

Financial Liability

Droppings (Canada goose, pigeon, etc.) create a severe slip-and-fall hazard

Machinery Downtime & False Alarms

Birds can cause a work stoppage or trigger alarms and security

Depreciation of Assets

Acidic droppings shorten the life of valuable investments

Product Waste

Bird droppings make product unsalable, eating into profits
