

Get rid of aggressive, destructive, disease-carrying Canada geese

3-D COYOTE LIFELIKE, FULL-SIZE PREDATOR

**Realistic, stalking threat
creates a "danger zone"
where geese won't want to linger**

- **Safe & Humane:** avoid dangerous chemicals and negative publicity from harming geese
- **Economical:** avoid costly ongoing rental or maintenance programs
- **Versatile:** use on golf courses, city parks, corporate, school or hospital campuses, homes, etc.
- **Durable:** water- and weather-resistant EVA resin lasts and lasts
- **3-Dimensional:** 360-degree coverage is visible from any angle - far superior to flat silhouette cutouts
- **Realistic & Moving:** lifelike natural predator with furry tail changes positions in the slightest breeze
- **Easy-to-use & Portable:** sets-up instantly; folds for storage at season's end

GooseChase

Food-grade, biodegradable methyl anthranilate spray is a long-lasting taste aversion for geese

GooseBuster

A thirty-year-veteran biologist recorded these first-ever alarm and alert cries of Canada geese, broadcast intermittently

Gator Guard

Lifelike floating alligator head is a visual deterrent for geese; it works in any geographic location through instinctive fear
